

DRAFT: December 13th, 2006

Policy on Seasonal Non-Scheduled Swim Meets

1. Before each swim season the Head Coach will recommend a list of swim meets to the HAC Board of Directors. The Head Coach will make this recommendation based on his/her estimate of when the league meets will be held and which Mid-Atlantic USA and other invitational meets are available within a reasonable driving distance. The overall goal of this schedule is to make a reasonable number of meets available for a club of our size and strength.
2. After the Board approves the recommendation, the Club will budget travel and coach costs for the season.
3. Swimmers interested in attending non-scheduled meets must first discuss the matter with the Head Coach. If a sufficient number of swimmers show an interest in attending a non-scheduled meet and the Head Coach is otherwise satisfied that it an appropriate meet, the Head Coach will seek Board approval to add the meet to the Club schedule.
4. Swimmers are permitted (though not encouraged) to attend non-scheduled meets. In this case, the swimmer would be entering the meet as an individual, not as a member of the HAC swim club. HAC's general liability insurance coverage does not extend to non-scheduled meets, and times achieved at non-scheduled meets will not be entered into the HAC database.
